### FAIR PLAN UNDERWRITING STANDARDS

The FAIR Plan is an insurance industry funded full service insurance company designed to provide basic and affordable property insurance for qualified properties when coverage is not available through the standard market for reasons beyond the property owner's control.

- Properties must meet reasonable underwriting requirements, including satisfactory housekeeping and maintenance.
- All properties are surveyed to confirm that underwriting requirements are met. An unsatisfactory survey can lead to coverage being denied or canceled.
- The applicant must not have had excess losses within their control. The FAIR Plan generally does not decline properties affected by acts of nature losses; however, coverage may be reduced and/or deductibles increased.
- An exclusionary endorsement may be used to exclude unacceptable hazards.
